## Contact Lenses & Care

Lens

### MoistureLoc Solution Information

The health and safety of your eyes has always been our first priority. That's why we have stopped selling one of our ReNu® contact lens solutions, MoistureLoc. After thousands of tests, there is no evidence of MoistureLoc contamination, tampering, or counterfeiting. That leads us to believe that there may be some aspect of the MoistureLoc formula, when combined with certain environmental factors, lens wear and care practices, and other factors, that might increase the risk of Fusarium infection in rare circumstances. So we're taking decisive and responsible action in the interests of our customers by permanently removing MoistureLoc.

This action does NOT affect our other ReNu® products, including ReNu MultiPlus®, and ReNu Multi-Purpose. Each has outstanding, unsurpassed record of safety and effectiveness, and you can use them with confidence.

### Returning MoistureLoc Product

We continue to accept returns for ReNu with MoistureLoc Solution, which has been off the market since May, 2006. If you have not yet returned your product, please take the following steps: Pour any remaining product down a drain, and remove the label(s) from each empty bottle. Send the labels along with your name, mailing address and phone number clearly written on a piece of paper to the following address:

Bausch & Lomb  
ATTN: Dawn Metzler  
108 Metropolitan Park Drive  
Liverpool, N.Y. 13088

Once we receive the label(s) we will mail one coupon for a 12 oz. bottle of ReNu MultiPlus® for each MoistureLoc label you provided with a maximum of two free ReNu MultiPlus coupons per household. ReNu MultiPlus has a proven track record of safety and lens cleaning effectiveness. Duplicate requests will not be honored.
